AshokanBoaters.org

6/12/10

We are a community group supporting the DEP's efforts to bring recreational boating to the Ashokan Reservoir. We salute the DEP for its successful pilot program at the Cannonsville Reservoir and look forward to a program suitable to our beautiful Ashokan.

As responsible boaters, we will work with the DEP and local environmental groups to ensure a program that is respectful of other recreational activities, environmentally safe, and supports or even enhances the DEP's efforts to sustain water quality.

Please sign this petition and make copies for your friends, or go to AshokanBoaters.org to sign.
